

Asian Development Bank & Portugal

FACT SHEET

The Asian Development Bank (ADB) is dedicated to reducing poverty in Asia and the Pacific through inclusive economic growth, environmentally sustainable growth, and regional integration.

Established in 1966, it is owned by 67 members—48 from the region—who have committed \$216.21 billion in loans to the vision of a region free of poverty.

Despite the region's many successes, it remains home to the majority of the world's poor.

Portugal has contributed \$174.38 million in capital subscription as of 31 December 2014. It has contributed and committed \$106.38 million to special funds since joining in 2002.

Companies and consultants from Portugal have been awarded \$0.80 million in procurement contracts on ADB-financed projects since 2003.

In 2014, lending volume was \$12.92 billion (113 projects), with technical assistance (TA) at \$158.88 million (256 projects) and grant-financed projects at \$405.34 million (17 projects). In addition, \$9.24 billion was generated in direct value-added cofinancing in the form of official loans and grants, other concessional financing, and commercial cofinancing such as B loans, risk transfer arrangements, guarantee cofinancing, parallel loans, parallel equity, and cofinancing for transactions under ADB's Trade Finance Program.

From 1 January 2010 to 31 December 2014, ADB's annual lending volume averaged \$12.10 billion. In addition, investment grants and TA funded by ADB and special funds resources averaged \$697.97 million and \$156.69 million in TA over the same period.

As of 31 December 2014, the cumulative totals excluding cofinancing were \$216.21 billion in loans for 2,729 projects in 44 countries, \$6.87 billion in 256 grants, and \$3.75 billion in TA grants, including regional TA grants.

In addition to loans, grants, and TA, ADB uses guarantees and equity investments to help its developing member countries.

With headquarters in Manila, ADB has 32 offices around the world with 2,990 staff from 60 of its 67 members as of 31 December 2014.

Cofinancing

ADB arranges cofinancing from bilateral and multilateral sources, export credit agencies, and commercial sources in the form of official loans and grants, other concessional financing, B loans, risk transfer arrangements, parallel loans and equity, guarantee cofinancing, and cofinancing for transactions under ADB's Trade Finance Program. Cofinancing brings additional resources to ADB's project financing. In 2014, total direct value-added cofinancing amounted to \$9.24 billion for 188 projects, of which \$9.09 billion was for 77 investment projects and \$144.41 million was for 111 technical assistance projects. Cumulative direct value-added cofinancing for the period 1970–2014 amounted to \$54.37 billion for 2,215 projects, of which \$52.61 billion was for 704 investment projects and \$1.76 billion was for 1,511 technical assistance projects.

Trust Funds

Trust funds are key instruments to mobilize and channel grants from external sources to finance technical assistance and components of investment projects. They play an important role in complementing ADB's own grant resources. So far, bilateral and multilateral sources, foundations, and private sector partners have contributed about \$6.16 billion in grants, including trust funds, to ADB operations. Initially, trust funds were established through single-donor channel financing agreements targeting a number of specific sectors. ADB has been increasingly switching to multi-donor trust funds covering thematic issues.

A more recent development is the establishment of trust funds under theme-focused umbrella initiatives, called financing partnership facilities, which support priority areas in ADB's long-term strategic framework, *Strategy 2020*, such as water, clean energy, regional cooperation and integration, urban sector financing, and health.
