## FACT SHEET

The Asian Development Bank (ADB) is dedicated to reducing poverty in Asia and the Pacific through pro-poor sustainable economic growth, social development, and good governance.

Established in 1966, it is owned by 67 members—48 from the region—who have committed \$179.7 billion in loans to the vision of a region free of poverty.

Despite the region's many successes, it remains home to two-thirds of the world's poor: 1.8 billion people who live on less than \$2 a day, with 903 million struggling on less than \$1.25 a day.

Portugal has contributed \$184.85 million in capital subscription as of 31 December 2011. It has contributed and committed \$112.63 million to special funds since joining in 2002.

Portuguese companies and consultants have been awarded \$0.72 million in procurement contracts (based on nationality of contractor) on ADB-financed projects since 2003.

In 2011, lending volume was \$12.61 billion (104 projects), with technical assistance (TA) at \$148 million (212 projects) and grant-financed projects at \$614 million (23 projects). In addition, \$7.7 billion was generated in direct value-added cofinancing in the form of official loans and grants and commercial cofinancing such as B loans, risk transfer arrangements, parallel loans, and cofinancing for transactions under ADB's Trade Finance Program.

From 1 January 2007 to 31 December 2011, ADB's annual lending volume averaged \$11.34 billion. In addition, TA and investment grants funded by ADB and special funds resources averaged \$755.3 million and \$175.0 million in TA over the same period.

As of 31 December 2011, the cumulative totals excluding cofinancing were \$179.7 billion in loans for 2,423 projects in 42 countries, \$5.0 billion in 186 grants, and \$3.3 billion in TA grants, including regional TA grants.

In addition to loans, grants, and TA, ADB uses guarantees and equity investments to help its developing member countries.

With headquarters in Manila, ADB has 30 offices around the world with 2,958 staff from 61 members as of 31 December 2011.

Cofinancing brings additional resources to ADB's project financing. ## Trust Funds

Trust funds are key instruments to mobilize and channel grants from external sources to finance technical assistance and components of investment projects. They play an important role in complementing ADB's own grant resources. So far, bilateral, multilateral, and private sector partners have contributed about \$4.3 billion in grants including trust funds, to ADB operations. Initially, trust funds were established through single-donor channel financing agreements targeting a number of specific sectors. Over time, ADB has been increasingly switching to multidonor trust funds covering thematic issues. A more recent development is the establishment of trust funds under theme-focused umbrella initiatives, called financing partnership facilities, which support priority areas in ADB's long-term strategic framework, Strategy 2020 such as water, clean energy, regional cooperation and integration, and urban sector financing.

Portugal has contributed to the following trust fund:

## Share of ADB's Procurement Contracts

Each year, ADB provides loans to fund projects and activities in its developing member countries and several billion dollars in contracts to procure goods and consulting services.

Procurement contracts for goods and related services, civil works, and consulting services under loan and technical assistance operations totaled \$6.92 billion in 2010 and \$7.56 billion in 2011. Cumulative procurement, as of 31 December 2011, was \$117.97 billion. Most contracts were awarded on the basis of international competition, which is open to firms and individuals from any ADB member, regional or nonregional.
